Subject: Call from EDF re: OECA-led EFS inspections

Hi Greg,

I just left you a voice mail about this.

I received a call (voice mail) from Mario Bravo of EDF (210-865-7987) late yesterday afternoon.

He had gotten a call from a reporter re: an EPA Clean Air Act enforcement sweep in the Eagle Ford Shale last fall. He hadn't heard anything about it, so he was giving me a call.

Since OECA was the lead, I wanted to see how you wanted to respond. Do you have someone in the OECA communications office you'd like me to refer them to? Or have them talk to you?
